## **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest the limitation of frequency-selective autocorrelation in a frame-level detector for making speech/non-speech decisions. It is known in the prior art to provide autocorrelation for making a determination of pitch for a speech signal, and to make voicing decisions by detection of pitch. However the prior art of record does not disclose or suggest frequency-selective autocorrelation for a speech/non-speech decision. Applicants' Specification, Page 1, Lines 8 to 9, discloses that frequency-selective autocorrelation for a frame-level detector in a speech/non-speech utterance detector has an advantage of high noise immunity in speech recognition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Martin Lerner whose telephone number is (571) 272-7608. The examiner can normally be reached on 8:30 AM to 6:00 PM Monday to Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richemond Dorvil can be reached on (571) 272-7602. The fax phone
